Objective

Motivated Computer Science undergraduate (UNIMAS) specializing in Multimedia Computing. Proven experience in IT support and UI/UX design, with a Dean's List achievement (GPA 3.57). Seeking to leverage skills in Java, Python, and Figma for a Junior UI/UX Designer or Multimedia Developer role to create impactful user experiences and innovative digital solutions.

Experience

- Mary Kay (Malaysia) Sdn. Bhd**
Independent Beauty Consultant (IBC) (February 2021 - May 2022)
 - Provided personalized beauty consultations and product demonstrations to clients.
 - Developed strong customer relationships and maintained repeat business through excellent service.
 - Managed sales transactions, inventory, and order processing independently.
 - Promoted products through one-on-one sessions and small group events, achieving monthly sales goals.
 - Built skills in communication, time management, and self-motivation through independent work.
- Pejabat Pendidikan Daerah (PPD) Bintulu**
Internship (January 2020 - March 2020)
 - Maintained 100% system uptime for staff by performing proactive hardware troubleshooting and network maintenance.
 - Executed software installation and provided Level 1 Technical Support to government staff.
 - Helped manage and organize digital files, ensuring proper data backup and security.
 - Learned about IT support processes in a government office environment.
 - Developed problem-solving, teamwork, and time management skills through daily IT support tasks.

Education

- Universiti Malaysia Sarawak (UNIMAS)** Expected Graduation: June 2027
